

## Products, Knowledge, and Quality Technical Controls delivers.

For more than 30 years, Technical Controls has developed engineering expertise in valve automation, fluid-handling systems, filtration, process heating, and factory automation solutions. Our engineering and value-added capabilities can help you solve the most difficult industrial process or high purity application.

## Markets Served

### Industrial

- Petroleum Refining
- Chemical Processing
- Power Generation
- Mining
- Analytical Instrument OEMs
- Scientific Research
- Pulp and Paper
- General Manufacturing

### High Purity

- Semiconductor
- Wafer Processing OEMs
- Fabrication Facilities
- Mechanical Contractors
- Facilities Services

### Sanitary

- Biotechnology
- Pharmaceutical
- Food & Beverage
- Medical OEMs

Precision Process Control

Better business solutions  
for today and tomorrow

## Value-Added Services

### Valve Automation Centers

- Application engineering, valve sizing, flow meter selection, design, assembly, and testing
- Bracketing and custom components
- Custom valve automation application, assembly, testing, and repair
- Field training

### Motion Control and Automation Center

- Engineering analysis, electro-mechanical design, and documentation
- Electro-mechanical sub-assemblies and complete machine design
- Motion control sizing, selection, and application support
- Local and on-site hardware, software troubleshooting, and support

### Chemical Seal Filling Center

- Full service filling station for diaphragm seal assemblies
- Assemble, calibrate, and test liquid fillable pressure gauges

### Process Heating Solutions Center

- Application engineering, product selection, and sizing
- Heater failure analysis and troubleshooting
- Heat trace design and on-site job survey

### Filtration Solutions Center

- Application technicians, filter specification, and sizing
- Lab analysis of your fluid to determine particle size
- On-site filter application and usage survey
- Industrial rental vessels available
- Field training and certification

### Online E-Commerce Center

- Real time stock and price checks
- Place orders, check order status, and history
- Expedite orders and track shipments
- Schedule orders

## Operational Capabilities

- Ten Stocking Locations
- Over 25K Active SKUs
- 99% Order Fulfillment Accuracy
- Two Day Shipping in Western U.S.
- Inventory Management
- Proactive Customer Service
  - Email Order Acknowledgements
  - Email Advance Shipment Notifications
  - Email Will Call Order Availability Notification

## Product Expertise

INSTRUMENTATION  
UHP FLUID HANDLING  
PROCESS CONTROL  
FILTRATION  
PROCESS HEAT & CONTROL  
MOTION CONTROL & AUTOMATION
